Haunted House Logic Problem

Use the table to help you solve the logic problem. Each square represents a possible answer. Follow the rows and columns to find the correct combination. Draw a dot in a square for the answer where the vertical and horizontal squares meet. Draw an "x" in a square that isn't the answer.

	Attic	Kitchen	Parlor	Bedroom	Noise	Spider	Image	Feeling
Tim								
Kathy								
John								
Marna								
Noise								
Spider								
Image								
Feeling								

Tim, Kathy, John and Marna visit a haunted house. They each explore a different room: kitchen, bedroom, attic and parlor. There is something in each room that scares them: a strange noise, creepy feeling, spider and an unexplained image. Can you determine who went into what room and what scared each of them?

1. **Tim was too scared to go into the attic but he heard a strange noise in another room.**
2. **Kathy was so happy she didn't come across any spiders or see any unexplained images.**
3. **The person who saw the spiders, saw them in the bedroom.**
4. **Marna explored the kitchen.**
